INVOLVEMENT

- Mintbean CareerHack: JavaScript Hackathons
- Danforth Reduces Environmental Group Volunteer
- Otesha West Coast charitable cycling tour

SUMMARY

A passionate full-stack developer with an eagerness for learning and exploring new trends in the technology industry. I am looking to collaborate with a diverse, cross-functional team towards a common purpose. Personable, hard-working, and incredibly motivated to tackle challenging learning opportunities.

PROJECTS

GoalSetter

Jun. - Present 2020

App + Chrome Extension that tracks users tasks and analyzes their online productivity.

- Stack: Django, Python, React.js, Chrome Extension API, Styled-Components

DevCollabs

May 2020

Unified platform for developers to collaborate on an IDE code editor. PERN stack.

- Stack: Node.js, Express, React.js, TypeScript, Postgres, Gatsby, JWT, Styled-Components, Material UI

Jungle Rails

Apr. 2020

An e-commerce website that users can browse, add to cart, and purchase items.

- Stack: Ruby, Ruby on Rails, Stripe API, RSpec, Capybara, PostgreSQL

Interview Scheduler

Mar. 2020

Single page application (SPA) for users to book, edit and delete interviews with the interviewer of their choice. Includes error handling and async loading status.

- Stack: Node.js, Express, React.js, Postgres, SCSS Cypress, Jest, Storybook, CircleCi, Socket.io

WORK EXPERIENCE

Apprentice Mentor, Web Development

Aug. - Present 2020

Lighthouse Labs

- Respond to assistance requests, with a focus on fundamentals, to students enrolled in bootcamp.
- Responsible for guiding the student to the solution, demonstrating a better style and debugging technique through positive reinforcement.
- Bi-weekly reports on student's educational progress through Slack.

WordPress Website Designer

Apr. - Sep. 2020

Eco Fluid Center Ltd.

- Built wireframe prototypes for site designs, functionality and navigation on WordPress.
- Lead content management by adding new data and creating backups through phpMyAdmin.
- Established SEO plan and implementation.

EDUCATION

Lighthouse Labs

Diploma: Full-Stack Web Development

Mar. - May 2020

- Completed 700+ hours of an intensive curriculum in 12 weeks.
- Focused on: HTML, CSS, JavaScript, Node.js, databases, React.js, Ruby on Rails, automated testing, and computer science fundamentals.
- Experience working remotely with a collaborative team using Github to build a midterm and final full-stack app from scratch.

University of Waterloo

Bachelor of Science

Sep. 2015 - 2020

- Lab Assistant in the Genetics Research Department, Jan-Feb 2019
- Lab Assistant in the Ecology Research Department, Jan-Apr 2018
- CS105: Intro to Computer Programming, 2018
